

Your Benefits:

- Seamless communications over fiber, radio, 3G/4G/5G, CBRS, Anterix, leased lines
- SCADA and IIoT backhaul, protocol conversion and integrated PLC/RTU
- Integrated LoRaWAN or WiFi Halow gateway
- Operational voice, video, data aggregation, and transport for legacy SCADA and new IoT devices
- Ultra-resilient for uninterrupted operations
- Edge Computing processing and storage for a variety of added-value IoT platform agents, cyber security, video processing, and automation
- PtP and PtMP radios over licensed and unlicensed bands
- Enhanced cyber security – IPsec, PKI, FW, IDS/IPS, SIEM/SOC
- Zero-touch provisioning for easy deployment
- End-to-end operational network management and monitoring
- Complies with HAZLOC and other utility certifications

SecurityGateway
VPN Aggregator, Router and Firewall

PowerFlow
Managed Ruggedized Ethernet Switch with Power over Ethernet

Smart SFPs
G-PON and XGS-PON OLT in an SFP

CypherPlug
Miniature IP-Level Network Security Device

Megaplex
Next-Generation Multiservice Networking Node

SecFlow
Industrial IoT Gateway with Programmable Logic Controller

Ceragon/Airmux
Wireless Transport Platform

RADview
Management and Domain Orchestration
