

Evolve Any Service over Any Network

As a global telecom access solutions vendor, RAD is committed to enabling service providers and critical infrastructure operators to evolve any service over any network.

By keeping at the forefront of pioneering technologies and engaging in **co-innovation** with our customers, we strive to help service providers move up the value chain at a pace that is right for them, while offering their end-customers and network operators added value – be it in **network edge virtualization and vCPE**, **industrial IoT**, or **5G xHaul**.

Service Providers

Migrate to NFV/SDN edge virtualization and 5G xHaul **today** with RAD's Service Assured Access solutions.

Critical Infrastructure

OT/IT convergence, industrial IoT backhaul with edge computing and cyber-secure operational WAN with RAD's Service Assured Networking solutions.

With 40 years of innovation, a significant worldwide presence in over 150 countries and an installed base of more than 16 million network elements, RAD has a proven track record of delivering value and addressing our customers' needs.

RAD is a member of the \$1.5 billion RAD Group of companies, a world leader in telecommunications solutions.
