

# Industrial IoT Backhaul with Edge Computing

Application Brochure

Service Assured Access Solutions

### Your Benefits:

- Offer competitive IoT services for monitoring and automation devices, Smart City projects, etc.
- Virtual environment for user-tailored applications allows customers to add new applications on top of SecFlow devices
- Zero-touch provisioning, enhanced
- cyber security (IPsec, PKI, FW, IDS/IPS, SIEM)
- Seamless communications over fiber optics, radio links and 2G/3G/LTE cellular links
- Secure remote access for end-user device management
- Integrated IEC 61131-3 RTU/PLC
- Integrated PLC functionality and LoRaWAN gateway reduces the number of devices in the network
- Transparent delivery of SCADA, protocol conversion and terminal server
- Complies with IEC 61850-3 and IEEE 1613 environmental standards

### Products Included in this Solution:

**SecFlow**  
Industrial IoT Gateway with Edge Computing

**vCPE-OS**  
Open Carrier-Class Operating System

**SecurityGateway**  
VPN Aggregator, Router and Firewall

**RADview**  
Management and Domain Orchestration
